15 December 1971

MEMORANDUM FOR: Holders of COMIREX-D-34.6/1

SUBJECT : Distribution Requirements for Airborne Acquired Photography

The attached Tab A-1 and A-2 should be substituted for the pages currently in your possession. This change reflects the reduction by one (1) DP of the primary for NPIC and the removal of their requirement for duplicate negative of both the primary and tracker. NPIC will continue to receive the original negatives.

Chairman, EXSUBCOM
